Understanding Flight Cancellations and Delays

Flight cancellations and delays are usually caused by weather conditions, technical issues, air traffic congestion, or operational problems. When you book through Chase Travel, your ticket is still governed by the airline's policies, but Chase Travel acts as the intermediary to help manage your booking. If your flight is disrupted, your first move should be to check your email or app notifications and then contact support at ☎||+1→888→483→9719|| or ☎||+1→888→483→9719|| for real-time updates and assistance.

What Happens If Your Flight Is Canceled?

If your flight is canceled, the airline typically offers you two main options: a full refund or rebooking on the next available flight. Since you booked through Chase Travel, you may need to process these changes via their platform or support team. Refund eligibility depends on fare type and airline

rules, but many cancellations initiated by airlines qualify for a full refund. To quickly secure your options, call  ||+1→888→483→9719|| or  ||+1→888→483→9719|| and avoid long waiting times.

What Happens If Your Flight Is Delayed?

Flight delays can range from minor (30 minutes) to significant (several hours). In most cases, airlines will rebook you automatically if you miss a connection. However, if your delay causes major inconvenience, you may be eligible for compensation, meal vouchers, or hotel stays depending on airline policies. When booked through Chase Travel, you can confirm your entitlements by contacting  ||+1→888→483→9719|| or  ||+1→888→483→9719|| to ensure you don't miss out on benefits.

Refund vs Travel Credit: What You Should Know
