Call +1 (855) 321 3294 for Assistance

Traveling with pets on Alaska Air Lines is possible, but there are specific rules and requirements you need to follow. Whether your pet is traveling in the cabin or as cargo, understanding the policy will help ensure a smooth journey. For assistance, call **+1 (855) 321 3294**.

1. Can You Bring Pets on Alaska Flights?

Yes, Alaska allows pets on select flights, depending on size, destination, and availability.

- **Small Pets in Cabin:** Cats and small dogs can travel in the cabin if they fit in an approved carrier.
- **Larger Pets:** May need to travel as cargo through Alaska's specialized pet transport services.
- **Restrictions:** Some destinations and aircraft types may have limitations.

For confirmation, call **+1 (855) 321 3294**.

2. Pet Travel in the Cabin

If your pet qualifies for in-cabin travel:

- **Carrier Requirements:** Your pet must stay in a ventilated, airline-approved carrier that fits under the seat.
- **Age Requirements:** Pets must meet minimum age requirements for travel.
- **Reservation Limit:** There is a limited number of pets allowed per flight, so early booking is recommended.

For booking assistance, call **+1 (855) 321 3294**.

3. Pet Travel as Cargo

For pets that cannot travel in the cabin:

- **Cargo Service:** Larger pets may be transported through Alaska's cargo program.
- **Safety Standards:** Temperature-controlled and monitored environment for animal safety.
- **Advance Booking:** Reservations must be made ahead of time.

For details, call **+1 (855) 321 3294**.

4. Fees for Traveling with Pets

- **In-Cabin Pet Fee:** A fixed fee applies each way, depending on your route.

- **Cargo Fees:** Costs vary based on pet size, weight, and destination.

For current pricing, call **+1 (855) 321 3294**.

5. Important Requirements

- **Health Documentation:** Some destinations require health certificates or vaccination records.
- **Carrier Size Compliance:** Your pet carrier must meet Alaska's size guidelines.
- **Behavior:** Pets must remain calm and inside the carrier during the flight.
